

Customer complaint report

Meridian Formulations | Fictional sample for demonstration

Complaint date	2026-09-09
Customer	Meridian Formulations
Contact	quality@meridian.example
Product	Metformin hydrochloride
Product type and grade	API IP/BP
Batch / lot number	MFH260712A
Manufacturing date	2026-07-12
Expiry / retest date	2028-07-11
Quantity affected	25 kg in 1 HDPE drum
Originating site / block	Visakhapatnam, API Block A
Impacted materials	HDPE drum and inner polyethylene liner
Complaint type	Packaging integrity / possible contamination

Reported observations

During receipt inspection, the customer found a torn inner liner in one sealed shipment drum. Small dark particles were visible on the powder surface. The material has not been used in manufacturing and the affected drum has been placed on hold. The nature of the particles has not been identified.

Requested follow-up

Please investigate the packaging damage and possible contamination, provide sample collection instructions, and advise on replacement. No patient exposure has been reported; exposure across other batches is unknown. All root causes remain unconfirmed.
